EXPERIENCE

Arcadix Infotech Pvt. Ltd.

Software Engineer(FrontEnd UI Developer)

Jan 2022 – Nov 2023 Bangalore

- Implemented frontend UI for Project Extranet, encompassing three applications (School, Teacher, and Pupil); empowered educational institutes to efficiently create tests, manage student performance, and monitor results, leading to a 40% increase in test completion rates.

Capgemini Technology Services India Ltd.

Software Engineer

Sept 2020 – Dec 2021 Bangalore

- Worked on custom user interface and business applications on the **Salesforce.com** platform. Leveraged client's existing **framework/CRM** system for better data visibility and system integration.
- Assisted in developing Project Scope, Business Requirements, and Functional Requirements with internal team and clients.

Highradius Corporation

Full Stack Software Engineer Intern

May 2019 – Jun 2019 Hyderabad

- Built an **Payment Date Prediction App**(AI-Enabled Fintech B2B Cloud Application) for Account Receivable Department using **JavaScript, Java, and Machine Learning** model.

PROJECTS

Extranet School

- Streamlined user experience by developing a user-friendly platform enabling teachers to effortlessly generate logins, share news, documents, and manage billing and licenses for schools; resulting in a 25% increase in teacher engagement and productivity.
- Developed and implemented a comprehensive timetable and test creation system for pupils, resulting in streamlined scheduling processes and improved organization of academic resources, positively impacting 500+ students.

Technologies: React, React Native and Redux.

Extranet Teacher

- Orchestrated the generation of teacher logins, enabling them to effortlessly navigate the application, establish classes, allocate tests to pupils, and effectively monitor individual performance, enhancing overall educational management processes.
- Simplified document and news management system, enabling users to efficiently check, send, and edit files, while adding notes and uploading new content; increased user productivity by 40%.

Technologies: React, React Native and Redux.

Extranet Pupil

- Created an intuitive application for organization pupils enabling them to complete assigned tests, access retests, review past attempts, and receive feedback from teachers; improved learning outcomes and fostered a collaborative learning environment. Orchestrated the successful development and implementation of a user-friendly platform that revolutionized news and document handling; resulting in a 30% reduction in document processing time and a 20% increase in user satisfaction.

Technologies: React, React Native, Redux, and Swift.

EDUCATION

Bachelor of Technology in IT
Kalinga Institute of Technology

2016 – 2020 Bhubaneswar

CGPA: 7.29

XII

Anundoram Borooah Academy(AHSEC)
